

## The Future of Smart Cities and Innovative Governance

**Dr. Muqtedar Khan**  
**University of Delaware**

Plenary Presentation at the 2017 PSPA International Conference on  
Innovations in Public Administration Reforms in ASEAN | Manila | November 17, 2017

# FUTURE OF GOVERNANCE

City Centered

Technology Dependent

Science Driven

Capital Intensive

Knowledge Based

Innovation focused

# KEY CHALLENGES TO SMART GOVERNANCE?

How to promote innovation in Public Policy?

How to raise the capital and accumulate the knowledge to develop and sustain smart cities?

# INNOVATION IN PUBLIC POLICY

Through Competition

Through Collaboration

I recommend synthesis of  
the two approaches – **Collaborate  
to Compete**

“Competition  
makes us  
Faster;  
Collaboration  
makes us  
Better.”

# How to raise Capital and accumulate Knowledge for sustainable Smart cities?
